

### Develop a python script

Team ID	PNT2022TMID41546
Project Name	Smart waste management system for metropolitan cities

Step 1: Open python idle Step2: Type the program Step 3: Then click on file and save the document Step 4: Then click on Run then Run Module Step 5: output will be appeared in the idle window

### Python script

```
import requests
import json
import ibmiotf.application
import ibmiotf.device
import time
import random
import sys

# watson device details
organization =
